Details:

Each location will have individual lighting and each piece will have at least 2 feet of space between the next piece of art.

Art can be of any style and medium, as long as it can fit within the parameters of the framing. At this time there is no place for sculpture.

An artist may change their art work during the month that it is on the wall. If the art sells, the artist may replace the piece. All pieces must be framed in thin, black frame, no more than 1.5 inches in depth. Matting is the decision of the artist. All art must be approved by management as appropriate before being placed. Management possesses sole discretion and decisions are final.

Each location will have space provided for a business card sized placard for information on the piece. PinholeBox will make the cards with the information that the artist would like to promote. Such information should be:

- Name of Piece (if applicable)
- Name of Artist
- Price (if for sale)
- Contact information (if artist desires, or if PinholeBox is not acting as broker).

If PinholeBox is acting as a sales broker for the artist, the artist sets the price that they would like to sell the art for, whether the price is negotiable, what the lowest amount is that the artist is willing to sell for (if it is negotiable) and any other details or offers with the sale. PinholeBox will add 20% to the sale price as our broker fee.

PinholeBox makes no claim to possible sales or exposure, and will not be held liable for damage or loss of art.

All rates are subject to change. This rate sheet is not to be considered binding, prices may vary so be sure to get a quote before scheduling.
